1.0 Background

The Alternatives to Detention (ATD) Unit of the Office of Enforcement and Removal Operations (ERO) within the U.S. Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE) component is responsible for the development and implementation of programs that provide cost-effective alternatives to secure detention. These alternatives are designed to improve rates of appearance at immigration interviews and hearings by aliens released from secure detention and otherwise part of the non-detained population (i.e. those who have never been detained), and also intended to improve compliance with final orders issued by immigration judges.

Limited detention capacity and an increasing detainee population coupled with the need to lower absconder rates have sparked national efforts over the past several years to integrate the use of various alternatives to detention for aliens who do not require mandatory detention. Alternatives to detention offer the prospect of a considerable cost savings over secure detention for eligible aliens.

The Intensive Supervision Appearance Program (ISAP III) is a flight-mitigation program that uses technology and case management to increase compliance with release conditions, court appearances and final orders of removal while allowing aliens to remain in their community. Adults 18 years of age or older may be eligible for placement into the ATD program if they are not subject to mandatory detention and are currently in some stage of removal proceedings. Program participants will consist of people from a varying range of criminality with a focus on enforcement priority cases. The program will include varying degrees of supervision and electronic monitoring options as assigned by ERO officers. ATD participants are mandated to use some form of technology, either GPS or Telephonic Reporting. ERO officers will have the discretion to choose the type of technology as well as the mandated frequency for office visits and home visits on a case by case basis.

Services will be required at the locations listed in Attachment 4 -Location Overview. The program will consist of contractor stand-alone offices (C-site), a single contractor working at government office (G-site) and sites without a physical contractor or government offices (T-site) (See Section 6.7 of SOW for more information). A single ATD location may have multiple sites operating simultaneously with Headquarters Alternatives to Detention (HQ ATD) approval.

2.0 Scope

The contractor shall develop and implement an individualized service plan (ISP) and perform services in accordance with the requirements of this SOW at ERO locations nationwide based upon the participant's case and circumstances. The ISP provides the participant with recommendations on how to participate in the program successfully. ERO consists of 24 Field

Offices/Areas of Responsibility (AORs) which are divided into Regions across the Nation. These AORs and Regions are subject to change at any time. The current ATD locations, AORs and Regions are shown in Attachment 4. The services provided shall consist of community-based supervision, in-person reporting, telephonic reporting and GPS monitoring. The organization, design, and administration of the program shall comply with all applicable federal, state, and local licensing provisions, as well as ERO requirements as put forth in this SOW and elsewhere in the ATD contract. The contractor shall provide management oversight for the implementation and operations set forth in this SOW.

The granting of a favorable pre-employment determination shall not be considered as assurance that a favorable full employment determination will follow as a result thereof. The granting of a favorable pre-employment determination or a full employment determination shall in no way prevent, preclude, or bar the withdrawal or termination of any such access by ICE, at any time during the term of the contract. No employee of the Contractor shall be allowed to enter on duty and/or access sensitive information or systems without a favorable preliminary fitness determination or final fitness determination by the Office of Professional Responsibility, Personnel Security Unit (OPR-PSU). H.6 PRIVACY REQUIREMENTS

H.6.1 Definitions

“Breach,” as used in this clause, means the loss of control, compromise, unauthorized disclosure, unauthorized acquisition, unauthorized access, or any similar situation where persons other than authorized users, and for other than authorized purpose, have access or potential access to Personally Identifiable Information, in usable form whether physical or electronic. “Breach” may be used interchangeably with “Privacy Incident”.

“Personally Identifiable Information (PII),” as used in this clause, means any information that permits the identity of an individual to be directly or indirectly inferred, including any other information that is linked or linkable to that individual regardless of whether the individual is a citizen of the United States, legal permanent resident, or a visitor to the United States.

Examples of PII include: name, date of birth, mailing address, telephone number, Social Security Number (SSN), email address, zip code, account numbers, certificate/license numbers, vehicle identifiers including license plates, uniform resource locators (URLs), Internet protocol addresses, biometric identifiers (e.g., fingerprints), photographic facial images, or any other unique identifying number or characteristic, and any information where it is reasonably foreseeable that the information will be linked with other information to identify the individual.

“Sensitive Personally Identifiable Information (Sensitive PII),” as used in this clause, is a subset of Personally Identifiable Information, which if lost, compromised or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. Complete social security numbers (SSN), alien registration numbers (A-number) and biometric identifiers (e.g., fingerprint, voiceprint, iris scan) are considered Sensitive PII even if they are not coupled with additional PII. Additional examples include any groupings of information that contains an individual’s name or other unique identifier plus one or more of the following elements:

- (1) Driver’s license number, passport number, or truncated SSN (such as last 4 digits)
- (2) Date of birth (month, day, and year)
- (3) Citizenship or immigration status
- (4) Financial information such as account numbers or Electronic Funds Transfer Information
- (5) Medical Information
- (6) System authentication information such as mother’s maiden name, account passwords or personal identification numbers (PIN)

Other Personally Identifiable Information may be “sensitive” depending on its context, such as a list of employees with less than satisfactory performance ratings or an unlisted home address or phone number. In contrast, a business card or public telephone directory of agency employees contains Personally Identifiable Information but it is not sensitive.

“Real Data,” as used in this clause, means data from a production system, vendor, or public records, or any other dataset which otherwise contains operational data.

Contract Number HSCEDM-14-D-00004

Examples of real data include a dataset that is a ten-year old backup of an existing system and contains data about real individuals, matters, or cases, would be real data. A set of public records that was purchased from a vendor for use in testing would also be real data.

H.6.2 Systems Access

Work to be performed under this contract requires the handling of Sensitive PII. The contractor shall provide the Government access to, and information regarding systems the contractor operates on behalf of the Government under this contract, when requested by the Government, as part of its responsibility to ensure compliance with security requirements, and shall otherwise cooperate with the Government in assuring compliance with such requirements. Government access shall include independent validation testing of controls, system penetration testing by the Government, Federal Information Security Management Act (FISMA) data reviews, and access by agency Inspectors General for its reviews.

H.6.3 Data Security

Contractor shall limit access to the data covered by this clause to those employees and subcontractors who require the information in order to perform their official duties under this contract. The contractor, contractor employees, and subcontractors must physically secure Sensitive PII when not in use and/or under the control of an authorized individual, and when in transit to prevent unauthorized access or loss. When Sensitive PII is no longer needed or required to be retained under applicable Government records retention policies, it must be destroyed through means that will make the Sensitive PII irretrievable.

The contractor shall only use Sensitive PII obtained under this contract for purposes of the contract, and shall not collect or use such information for any other purpose without the prior written approval of the contracting officer. At expiration or termination of this contract, the contractor shall turn over all Sensitive PII obtained under the contract that is in its possession to the Government.

The Department of Homeland Security (DHS) has determined that performance of the tasks as described in this contract requires that the Contractor, vendor(s), etc. (herein known as Contractor) have access to sensitive DHS information, and that the Contractor will adhere to the following:

- (1) The contractor will safeguard any PII information and conduct training regarding the handling and protection of PII.
- (2) The contractor must report all suspected or confirmed incidents involving the loss and/or disclosure of PII to the Contracting Officer's Representative (COR).
- (3) The contractor agrees to reimburse ICE for the full cost of procuring victim remediation services, acquired following a loss or compromise of any identifying information about individuals, due to any act or omission of contractor or its employees, agents, subcontractors, or lower tier subcontractors. In its sole discretion, ICE will determine what victim remediation services are reasonable under the circumstances. The contractor will promptly notify the COR of a "security incident" as set forth in the DHS Handbook for safeguarding sensitive PII. Upon such notification, ICE/OAQ will secure from a Department entity or the Office of Inspector General an independent risk analysis of the data breach to determine the level of risk associated with the data breach for the potential misuse of any sensitive personal information involved in the data breach.
- (4) The contractor will hold harmless and unconditionally indemnify the government for the full extent of any liability, loss, cost, claim, damage, or expense resulting from, or in connection with, a loss or disclosure of PII in connection with the work performed under this contract due to any act or omission of contractor or its employees, agents, subcontractors, or lower tier subcontractors.

Note: The term 'data breach' means the loss, theft, or other unauthorized access to data containing sensitive personal information, in electronic or printed form, that results in the potential compromise of the confidentiality or integrity of the data. Contractor shall fully cooperate with the entity performing the risk analysis. Contractor agrees that failure to cooperate may be deemed a material breach of the contract by the government. The DHS Handbook for safeguarding sensitive PII can be found at:

<http://www.dhs.gov/xlibrary/assets/privacy/privacy-guide-spii-handbook.pdf>

H.6.4 Pass-Through to Subcontractors

The contractor agrees to incorporate the substance of this clause, its terms and requirements, in all subcontracts under this contract, and to require written subcontractor acknowledgement of same. Violation by a subcontractor of any provision set forth in this clause will be attributed to the contractor.

H.6.5 Enhanced and More Specific IT Security Provisions

Contractor and sub-Contractors shall encrypt all "Sensitive Personally Identifiable Information" (Sensitive PII) data provided to them, collected for, or created under the contract. This requirement applies to all Sensitive PII data at rest and in transit and regardless of the physical or logical location of the data. The encryption must meet FIPS PUB 140-2 (Federal Information Processing Standards, established by the National Institute of Standards and Technology). An example encryption method that meets FIPS PUB 140-2 is AES 256 bit encryption. If the Contractor does not meet these standards, it should be considered and dealt with as a nonperformance issue.

DHS has published a guidebook defining Sensitive PII and setting standards for Sensitive PII handling and protection. The *DHS Handbook for Safeguarding Sensitive PII* is a public document on the DHS Privacy Office website. Link: http://www.dhs.gov/xlibrary/assets/privacy/privacy_guide_Sensitive_PII_handbook.pdf

H.6.6 Required Privacy Training for Contractors

Contractor shall provide training for all employees and sub-Contractors that have access to Sensitive PII as well as the creation, use, dissemination and / or destruction of Sensitive PII, at the outset of the sub-Contractor's / employee's work on the contract and every year thereafter. Said training would include procedures on how to properly handle Sensitive PII, to include security requirements for transporting of transmitting Sensitive PII information, reporting requirements for a suspected breach or loss of Sensitive PII information, etc.

The Federal Information Security Management Act (FISMA) requires all individuals accessing ICE information, regardless of their employment status, be they Federal or contract type employees, to take the annual Information Assurance Awareness Training (IAAT). In addition, all Contractor employees are required to complete ICE's Records Management Training annually.

Both courses (IAAT and Records Management) can be obtained via government provided CD. Contractor shall maintain copies of certificates as a record of compliance. The Contractor must submit an annual e-mail notification to the ICE COR that the required training has been completed for all the Contractor's employees.

H.6.7 Reporting Suspected Loss of Sensitive PII

Contractors must report the suspected loss or compromise of Sensitive PII to ICE in a timely manner and cooperate with ICE's Inquiry into the incident and efforts to remediate any harm to potential victims. The contracts should require the following (for existing and all new contracts involving Contracts handling Sensitive PII):

1. Contractor must report the suspected loss or compromise of Sensitive PII by its employees or sub-Contractors to the ICE Contracting Officer's Representative (COR) or Contracting Officer within one (1) hour of the initial discovery.
2. The Contractor must develop and include in its security plan (which is submitted to ICE) an internal system by which its employees and sub-Contractors are trained to identify and report potential loss or compromise of Sensitive PII.
3. The Contractor must provide a written report to ICE within 24 hours of the suspected loss or compromise of Sensitive PII containing the following information:
 - a. Narrative, detailed description of the events surrounding the suspected loss/compromise.
 - b. Date, time, and location of the incident.
 - c. Type of information lost or compromised.
 - d. Contractor's assessment of the likelihood that the information was compromised or lost and the reasons behind the assessment.
 - e. Names of person(s) involved, including victim, Contractor employee/sub-Contractor and any witnesses.
 - f. Cause of the incident and whether the company's security plan was followed or not, and which specific provisions were not followed.
 - g. Actions that have been or will be taken to minimize damage and/or mitigate further compromise.
 - h. Recommendations to prevent similar situations in the future, including whether the security plan needs to be modified in any way and whether additional training may be required.
4. The Contractor must cooperate with ICE or other government agency inquiries into the suspected loss or compromise of Sensitive PII.
5. At the government's discretion, Contractor employees or sub-Contractor employees may be identified as no longer eligible to access Sensitive PII or to work on that contract based on their actions related to the loss or compromise of Sensitive PII.

H.6.8 Separation Checklist for Contractor Employees

Contractors shall enact a protocol to use a separation checklist before its employees terminate working in the contract. The separation check list would cover areas such as:

- (1) Return of any government-furnished equipment;
- (2) Return or proper disposal of Sensitive PII (paper or electronic) in the custody of the Contractor employee or independent Contractor, including the wiping of data on any computer systems or media as appropriate; and
- (3) Termination of any technological access to the Contractor's facilities or systems that would permit the terminated employee's access Sensitive PII.

In the event of adverse job actions resulting in the dismissal of a Contractor employee or sub-Contractor, the Contractor shall notify the COR within 24 hours. For normal separations, the Contractor shall submit the checklist on the last day of the employment or work on the contract. The Contractor shall provide a copy of the checklist to the COR, if request by the COR, within 5-business days following the employee's termination.

H.6.9 Restrictions on Testing Using Real Data Containing PII

The use of real data containing Sensitive PII, from any source, for testing purposes is generally prohibited. The Contractor shall use synthetic or de-identified real data for testing whenever feasible. ICE policy requires that any proposal to use real data or de-identified data for IT system testing be approved by the ICE Privacy Officer and Chief Information Security Officer in advance. In the event performance of the contract requires or necessitates the use of real data for system testing purposes, the Contractor in coordination with the CO or COR and government program manager shall obtain approval from OCIO and the ICE Privacy Office and complete any required documentation.

H.6.10 Restrictions on Training Using Real Data Containing PII

The use of real data containing Sensitive PII, from any source, for training purposes is generally prohibited. The Contractor shall use synthetic or de-identified real data for training whenever feasible. ICE policy requires that any proposal to use real data or de-identified data for IT system training be approved by the ICE Privacy Officer and Chief Information Security Officer in advance. In the event performance of the contract requires or necessitates the use of real data for training purposes, the Contractor in coordination with the CO or COR and government program manager shall obtain approval from OCIO and the ICE Privacy Office and complete any required documentation.

H.6.11 Contractor IT Systems Hosting Government Data

The Contractor is required to obtain a Certification and Accreditation for any IT environment owned or controlled by the Contractor, or any subcontractor, on which Government data shall reside for purposes of IT system development, design, data migration, testing, training, or disposal. The Contractor shall certify in writing the destruction or return of all Government data at the conclusion of the contract.

H.6.12 Support Completion of Privacy Compliance Documents

The Contractor shall support the completion of the Privacy Threshold Analysis (PTA) document when it is required. PTAs are triggered by the creation, modification, upgrade, or disposition of an IT system, and must be renewed at least every three years. Upon review of the PTA, the DHS Privacy Office determines whether a Privacy Impact Assessment (PIA) and/or Privacy Act System of Records Notice (SORN), or modifications thereto, are required. The Contractor shall provide adequate support to complete the PIA in a timely manner, and shall ensure that project management plans and schedules include the PTA, PIA, and SORN (to the extent required) as milestones.

Additional information on the privacy compliance process at DHS, including PTAs, PIAs, and SORNs, is located on the DHS Privacy Office website (www.dhs.gov/privacy) under "Privacy Compliance Process & Templates." DIIS Privacy Policy Guidance Memorandum 2008-02 sets forth when a PIA will be required at

“Agent” means any individual, including a director, an officer, an employee, or an independent Contractor, authorized to act on behalf of the organization.

“Full cooperation”—

(1) Means disclosure to the Government of the information sufficient for law enforcement to identify the nature and extent of the offense and the individuals responsible for the conduct. It includes providing timely and complete response to Government auditors’ and investigators’ request for documents and access to employees with information;

(2) Does not foreclose any Contractor rights arising in law, the FAR, or the terms of the contract. It does not require—

(i) A Contractor to waive its attorney-client privilege or the protections afforded by the attorney work product doctrine; or

(ii) Any officer, director, owner, or employee of the Contractor, including a sole proprietor, to waive his or her attorney client privilege or Fifth Amendment rights; and

(3) Does not restrict a Contractor from—

(i) Conducting an internal investigation; or

(ii) Defending a proceeding or dispute arising under the contract or related to a potential or disclosed violation.

“Principal” means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

“Subcontract” means any contract entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract.

“Subcontractor” means any supplier, distributor, vendor, or firm that furnished supplies or services to or for a prime contractor or another subcontractor.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Code of business ethics and conduct.

(3)

(i) The Contractor shall timely disclose, in writing, to the agency Office of the Inspector General (OIG), with a copy to the Contracting Officer, whenever, in connection with the award, performance, or closeout of this contract or any subcontract thereunder, the Contractor has credible evidence that a principal, employee, agent, or subcontractor of the Contractor has committed—

(A) A violation of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United States Code; or

(B) A violation of the civil False Claims Act (31 U.S.C. 3729-3733).

(ii) The Government, to the extent permitted by law and regulation, will safeguard and treat information obtained pursuant to the Contractor’s disclosure as confidential where the information has been marked

“confidential” or “proprietary” by the company. To the extent permitted by the law and regulation, such information will not be released by the Government to the public pursuant to a Freedom of Information Act request, 5 U.S.C. Section 552, without prior notification to the Contractor. The Government may transfer documents provided by the Contractor to any department or agency within the Executive Branch if the information relates to matters within the organization’s jurisdiction.

(iii) If the violation relates to an order against a Governmentwide acquisition contract, a multi-agency contract, a multiple-award schedule contract such as the Federal Supply Schedule, or any other procurement instrument intended for use by multiple agencies, the Contractor shall notify the OIG of the ordering agency and the IG of the agency responsible for the basic contract.

The Contractor shall establish the following within 90 days after contract award, unless the Contracting Officer establishes a longer time period:

(1) An ongoing business ethics awareness and compliance program.

(i) This program shall include reasonable steps to communicate periodically and in a practical manner the Contractor’s standards and procedures and other aspects of the Contractor’s business ethics awareness and compliance program and internal control system, by conducting effective training programs and otherwise disseminating information appropriate to an individual’s respective roles and responsibilities.

(4) The Government will safeguard such disclosures in accordance with paragraph (b)(3)(ii) of this clause.

(G) Full cooperation with any Government agencies responsible for audits, investigations, or corrective actions.

Notice to Employees

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs. Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their

Contract Number HSCFDM-14-D-00004

payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

(c) The Contractor shall comply with all provisions of Executive Order 13201 of February 17, 2001, and related implementing regulations at 29 CFR Part 470, and orders of the Secretary of Labor.

(d) In the event that the Contractor does not comply with any of the requirements set forth in paragraphs (b), (c), or (g), the Secretary may direct that this contract be cancelled, terminated, or suspended in whole or in part, and declare the Contractor ineligible for further Government contracts in accordance with procedures at 29 CFR part 470, Subpart B--Compliance Evaluations, Complaint Investigations and Enforcement Procedures. Such other sanctions or remedies may be imposed as are provided by 29 CFR Part 470, which implements Executive Order 13201, or as are otherwise provided by law.

(e) The requirement to post the employee notice in paragraph (b) does not apply to--

(1) Contractors and subcontractors that employ fewer than 15 persons;

(2) Contractor establishments or construction work sites where no union has been formally recognized by the Contractor or certified as the exclusive bargaining representative of the Contractor's employees;

(3) Contractor establishments or construction work sites located in a jurisdiction named in the definition of the United States in which the law of that jurisdiction forbids enforcement of union-security agreements;

(4) Contractor facilities where upon the written request of the Contractor, the Department of Labor Deputy Assistant Secretary for Labor-Management Programs has waived the posting requirements with respect to any of the Contractor's facilities if the Deputy Assistant Secretary finds that the Contractor has demonstrated that--

(i) The facility is in all respects separate and distinct from activities of the Contractor related to the performance of a contract; and

(ii) Such a waiver will not interfere with or impede the effectuation of the Executive order; or

(5) Work outside the United States that does not involve the recruitment or employment of workers within the United States.

(f) The Department of Labor publishes the official employee notice in two variations; one for contractors covered by the Railway Labor Act and a second for all other contractors. The Contractor shall--

(1) Obtain the required employee notice poster from the Division of Interpretations and Standards, Office of Labor-Management Standards, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, DC 20210, or from any field office of the Department's Office of Labor-Management Standards or Office of Federal Contract Compliance Programs;

(2) Download a copy of the poster from the Office of Labor-Management Standards website at <http://www.olms.dol.gov>; or

(3) Reproduce and use exact duplicate copies of the Department of Labor's official poster.

(g) The Contractor shall include the substance of this clause in every subcontract or purchase order that exceeds the simplified acquisition threshold, entered into in connection with this contract, unless exempted by the Department of Labor Deputy Assistant Secretary for Labor-Management Programs on account of special circumstances in the national interest under authority of 29 CFR 470.3(c). For indefinite quantity subcontracts, the Contractor shall include the substance of this clause if the value of orders in any calendar year of the subcontract is expected to exceed the simplified acquisition threshold. Pursuant to 29 CFR Part 470, Subpart B--Compliance Evaluations, Complaint Investigations and Enforcement Procedures, the Secretary of Labor may direct the Contractor to take such action in the enforcement of these regulations, including the imposition of sanctions for noncompliance with respect to any such subcontract or purchase order. If the Contractor becomes involved in litigation with a subcontractor or vendor, or is threatened with such involvement, as a result of such direction, the Contractor may request the United States, through the Secretary of Labor, to enter into such litigation to protect the interests of the United States.

52.232-19 -- Availability of Funds for the Next Fiscal Year (Apr 1984)

Funds are not presently available for performance under this contract beyond the contract year in effect. The Government's obligation for performance of this contract beyond that date is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise for performance under this contract beyond the contract year in effect until funds are made available to the Contracting Officer for performance and until the Contractor receives notice of availability, to be confirmed in writing by the Contracting Officer. (End of Clause)

N/A

(e)(1) The Contractor shall notify the Contracting Officer reasonably in advance of placing any subcontract or modification thereof for which consent is required under paragraph (b), (c), or (d) of this clause, including the following information:

 - (G) A complete explanation of the incentive fee or profit plan when incentives are used. The explanation shall identify each critical performance element, management decisions used to quantify each incentive element, reasons for the incentives, and a summary of all trade-off possibilities considered.

(2) The Contractor is not required to notify the Contracting Officer in advance of entering into any subcontract for which consent is not required under paragraph (b), (c), or (d) of this clause.

(f) Unless the consent or approval specifically provides otherwise, neither consent by the Contracting Officer to any subcontract nor approval of the Contractor's purchasing system shall constitute a determination -

- (1) Of the acceptability of any subcontract terms or conditions;
- (2) Of the allowability of any cost under this contract; or
- (3) To relieve the Contractor of any responsibility for performing this contract.

Contract Number HSCFDM-14-D-00004

(h) The Contractor shall give the Contracting Officer immediate written notice of any action or suit filed and prompt notice of any claim made against the Contractor by any subcontractor or vendor that, in the opinion of the Contractor, may result in litigation related in any way to this contract, with respect to which the Contractor may be entitled to reimbursement from the Government.

(i) The Government reserves the right to review the Contractor's purchasing system as set forth in FAR Subpart 44.3.

(j) Paragraphs (c) and (e) of this clause do not apply to the following subcontracts, which were evaluated during negotiations:

(End of Clause)

52.249-2 -- Termination for Convenience of the Government (Fixed-Price) (Apr 2012)

(a) The Government may terminate performance of work under this contract in whole or, from time to time, in part if the Contracting Officer determines that a termination is in the Government's interest. The Contracting Officer shall terminate by delivering to the Contractor a Notice of Termination specifying the extent of termination and the effective date.

(b) After receipt of a Notice of Termination, and except as directed by the Contracting Officer, the Contractor shall immediately proceed with the following obligations, regardless of any delay in determining or adjusting any amounts due under this clause:

(1) Stop work as specified in the notice.

(2) Place no further subcontracts or orders (referred to as subcontracts in this clause) for materials, services, or facilities, except as necessary to complete the continued portion of the contract.

(3) Terminate all subcontracts to the extent they relate to the work terminated.

(4) Assign to the Government, as directed by the Contracting Officer, all right, title, and interest of the Contractor under the subcontracts terminated, in which case the Government shall have the right to settle or to pay any termination settlement proposal arising out of those terminations.

(5) With approval or ratification to the extent required by the Contracting Officer, settle all outstanding liabilities and termination settlement proposals arising from the termination of subcontracts; the approval or ratification will be final for purposes of this clause.

(6) As directed by the Contracting Officer, transfer title and deliver to the Government --

(i) The fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated; and

(ii) The completed or partially completed plans, drawings, information, and other property that, if the contract had been completed, would be required to be furnished to the Government.

Contract Number HSCEDM-14-D-00004

(7) Complete performance of the work not terminated.

(8) Take any action that may be necessary, or that the Contracting Officer may direct, for the protection and preservation of the property related to this contract that is in the possession of the Contractor and in which the Government has or may acquire an interest.

(9) Use its best efforts to sell, as directed or authorized by the Contracting Officer, any property of the types referred to in subparagraph (b)(6) of this clause; *provided*, however, that the Contractor

(i) is not required to extend credit to any purchaser and

(ii) may acquire the property under the conditions prescribed by, and at prices approved by, the Contracting Officer.

The proceeds of any transfer or disposition will be applied to reduce any payments to be made by the Government under this contract, credited to the price or cost of the work, or paid in any other manner directed by the Contracting Officer.

(c) The Contractor shall submit complete termination inventory schedules no later than 120 days from the effective date of termination, unless extended in writing by the Contracting Officer upon written request of the Contractor within this 120-day period.

(d) After expiration of the plant clearance period as defined in Subpart 49.001 of the Federal Acquisition Regulation, the Contractor may submit to the Contracting Officer a list, certified as to quantity and quality, of termination inventory not previously disposed of, excluding items authorized for disposition by the Contracting Officer. The Contractor may request the Government to remove those items or enter into an agreement for their storage. Within 15 days, the Government will accept title to those items and remove them or enter into a storage agreement. The Contracting Officer may verify the list upon removal of the items, or if stored, within 45 days from submission of the list, and shall correct the list, as necessary, before final settlement.

(e) After termination, the Contractor shall submit a final termination settlement proposal to the Contracting Officer in the form and with the certification prescribed by the Contracting Officer. The Contractor shall submit the proposal promptly, but no later than 1 year from the effective date of termination, unless extended in writing by the Contracting Officer upon written request of the Contractor within this 1-year period. However, if the Contracting Officer determines that the facts justify it, a termination settlement proposal may be received and acted on after 1 year or any extension. If the Contractor fails to submit the proposal within the time allowed, the Contracting Officer may determine, on the basis of information available, the amount, if any, due the Contractor because of the termination and shall pay the amount determined.

(f) Subject to paragraph (e) of this clause, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount to be paid or remaining to be paid because of the termination. The amount may include a reasonable allowance for profit on work done. However, the agreed amount, whether under this paragraph (f) or paragraph (g) of this clause, exclusive of costs shown in subparagraph (g)(3) of this clause, may not exceed the total contract price as reduced by

(1) the amount of payments previously made and

(2) the contract price of work not terminated.

The contract shall be modified, and the Contractor paid the agreed amount. Paragraph (g) of this clause shall not limit, restrict, or affect the amount that may be agreed upon to be paid under this paragraph.

(g) If the Contractor and the Contracting Officer fail to agree on the whole amount to be paid because of the termination of work, the Contracting Officer shall pay the Contractor the amounts determined by the Contracting Officer as follows, but without duplication of any amounts agreed on under paragraph (f) of this clause:

(1) The contract price for completed supplies or services accepted by the Government (or sold or acquired under subparagraph (b)(9) of this clause) not previously paid for, adjusted for any saving of freight and other charges.

(2) The total of --

(i) The costs incurred in the performance of the work terminated, including initial costs and preparatory expense allocable thereto, but excluding any costs attributable to supplies or services paid or to be paid under subparagraph (g)(1) of this clause;

(ii) The cost of settling and paying termination settlement proposals under terminated subcontracts that are properly chargeable to the terminated portion of the contract if not included in subdivision (g)(2)(i) of this clause; and

(iii) A sum, as profit on subdivision (g)(2)(i) of this clause, determined by the Contracting Officer under 49.202 of the Federal Acquisition Regulation, in effect on the date of this contract, to be fair and reasonable; however, if it appears that the Contractor would have sustained a loss on the entire contract had it been completed, the Contracting Officer shall allow no profit under this subdivision (g)(2)(iii) and shall reduce the settlement to reflect the indicated rate of loss.

(3) The reasonable costs of settlement of the work terminated, including --

(i) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals and supporting data;

(ii) The termination and settlement of subcontracts (excluding the amounts of such settlements); and

(iii) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory.

(h) Except for normal spoilage, and except to the extent that the Government expressly assumed the risk of loss, the Contracting Officer shall exclude from the amounts payable to the Contractor under paragraph (g) of this clause, the fair value as determined by the Contracting Officer, for the loss of the Government property.

(i) The cost principles and procedures of Part 31 of the Federal Acquisition Regulation, in effect on the date of this contract, shall govern all costs claimed, agreed to, or determined under this clause.

(j) The Contractor shall have the right of appeal, under the Disputes clause, from any determination made by the Contracting Officer under paragraph (e), (g), or (l) of this clause, except that if the Contractor failed to submit the termination settlement proposal or request for equitable adjustment within the time provided in paragraph (e) or (l), respectively, and failed to request a time extension, there is no right of appeal.

(k) In arriving at the amount due the Contractor under this clause, there shall be deducted --

(1) All unliquidated advance or other payments to the Contractor under the terminated portion of this contract;

(2) Any claim which the Government has against the Contractor under this contract; and

(3) The agreed price for, or the proceeds of sale of, materials, supplies, or other things acquired by the Contractor or sold under the provisions of this clause and not recovered by or credited to the Government.

(l) If the termination is partial, the Contractor may file a proposal with the Contracting Officer for an equitable adjustment of the price(s) of the continued portion of the contract. The Contracting Officer shall make any equitable adjustment agreed upon. Any proposal by the Contractor for an equitable adjustment under this clause shall be requested within 90 days from the effective date of termination unless extended in writing by the Contracting Officer.

(m)

(1) The Government may, under the terms and conditions it prescribes, make partial payments and payments against costs incurred by the Contractor for the terminated portion of the contract, if the Contracting Officer believes the total of these payments will not exceed the amount to which the Contractor will be entitled.

(2) If the total payments exceed the amount finally determined to be due, the Contractor shall repay the excess to the Government upon demand, together with interest computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). Interest shall be computed for the period from the date the excess payment is received by the Contractor to the date the excess is repaid. Interest shall not be charged on any excess payment due to a reduction in the Contractor's termination settlement proposal because of retention or other disposition of termination inventory until 10 days after the date of the retention or disposition, or a later date determined by the Contracting Officer because of the circumstances.

(n) Unless otherwise provided in this contract or by statute, the Contractor shall maintain all records and documents relating to the terminated portion of this contract for 3 years after final settlement. This includes all books and other evidence bearing on the Contractor's costs and expenses under this contract. The Contractor shall make these records and documents available to the Government, at the Contractor's office, at all reasonable times, without any direct charge. If approved by the Contracting Officer, photographs, microphotographs, or other authentic reproductions may be maintained instead of original records and documents.

(End of Clause)

52.249-8 -- Default (Fixed-Price Supply and Service) (Apr 1984)

(a)

(1) The Government may, subject to paragraphs (c) and (d) of this clause, by written notice of default to the Contractor, terminate this contract in whole or in part if the Contractor fails to --

(i) Deliver the supplies or to perform the services within the time specified in this contract or any extension;

(ii) Make progress, so as to endanger performance of this contract (but see subparagraph (a)(2) of this clause); or

(iii) Perform any of the other provisions of this contract (but see subparagraph (a)(2) of this clause).

(2) The Government's right to terminate this contract under subdivisions (a)(1)(ii) and (1)(iii) of this clause, may be exercised if the Contractor does not cure such failure within 10 days (or more if authorized in writing by the Contracting Officer) after receipt of the notice from the Contracting Officer specifying the failure.

(b) If the Government terminates this contract in whole or in part, it may acquire, under the terms and in the manner the Contracting Officer considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to the Government for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

(c) Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include

- (1) acts of God or of the public enemy,
- (2) acts of the Government in either its sovereign or contractual capacity,
- (3) fires,
- (4) floods,
- (5) epidemics,
- (6) quarantine restrictions,
- (7) strikes,
- (8) freight embargoes, and
- (9) unusually severe weather.

In each instance the failure to perform must be beyond the control and without the fault or negligence of the Contractor.

(d) If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence

Contract Number HSCFDM-14-D-00004

of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(c) If this contract is terminated for default, the Government may require the Contractor to transfer title and deliver to the Government, as directed by the Contracting Officer, any

(1) completed supplies, and

(2) partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (collectively referred to as "manufacturing materials" in this clause) that the Contractor has specifically produced or acquired for the terminated portion of this contract.

Upon direction of the Contracting Officer, the Contractor shall also protect and preserve property in its possession in which the Government has an interest.

(f) The Government shall pay contract price for completed supplies delivered and accepted. The Contractor and Contracting Officer shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property. Failure to agree will be a dispute under the Disputes clause. The Government may withhold from these amounts any sum the Contracting Officer determines to be necessary to protect the Government against loss because of outstanding liens or claims of former lien holders.

(g) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Government.

(h) The rights and remedies of the Government in this clause are in addition to any other rights and remedies provided by law or under this contract. (End of Clause)

52.252-2 -- Clauses Incorporated by Reference (Feb 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es): <http://farsite.hill.af.mil>, <http://www.dtic/mil/fars> or <http://www.arncet.gov/far> (End of Clause)

3052.204-70 SECURITY REQUIREMENTS FOR UNCLASSIFIED INFORMATION TECHNOLOGY RESOURCES (JUN 2006)

(a) The Contractor shall be responsible for Information Technology (IT) security for all systems connected to a DHS network or operated by the Contractor for DHS, regardless of location. This clause applies to all or any part of the contract that includes information technology resources or services for which the Contractor must have physical or electronic access to sensitive information contained in DHS unclassified systems that directly support the agency's mission.

(b) The Contractor shall provide, implement, and maintain an IT Security Plan. This plan shall describe the processes and procedures that will be followed to ensure appropriate security of IT resources that are developed, processed, or used under this contract.

(1) Within SIXTY (60) days after contract award, the contractor shall submit for approval its IT Security Plan, which shall be consistent with and further detail the approach contained in the offeror's proposal. The plan, as approved by the Contracting Officer, shall be incorporated into the contract as a compliance document.

(2) The Contractor's IT Security Plan shall comply with Federal laws that include, but are not limited to, the Computer Security Act of 1987 (40 U.S.C. 1441 et seq.); the Government Information Security Reform Act of 2000; and the Federal Information Security Management Act of 2002; and with Federal policies and procedures that include, but are not limited to, OMB Circular A-130.

(3) The security plan shall specifically include instructions regarding handling and protecting sensitive information at the Contractor's site (including any information stored, processed, or transmitted using the Contractor's computer systems), and the secure management, operation, maintenance, programming, and system administration of computer systems, networks, and telecommunications systems.

(c) Examples of tasks that require security provisions include--

(1) Acquisition, transmission or analysis of data owned by DHS with significant replacement cost should the contractor's copy be corrupted; and

(2) Access to DHS networks or computers at a level beyond that granted the general public (e.g., such as bypassing a firewall).

(d) At the expiration of the contract, the contractor shall return all sensitive DHS information and IT resources provided to the contractor during the contract, and certify that all non-public DHS information has been purged from any contractor-owned system. Components shall conduct reviews to ensure that the security requirements in the contract are implemented and enforced.

(e) Within 6 months after contract award, the contractor shall submit written proof of IT Security accreditation to DHS for approval by the DHS Contracting Officer. Accreditation will proceed according to the criteria of the DHS Sensitive System Policy Publication, 4300A (Version 2.1, July 26, 2004) or any replacement publication, which the Contracting Officer will provide upon request. This accreditation will include a final security plan, risk assessment, security test and evaluation, and disaster recovery plan/continuity of operations plan. This accreditation, when accepted by the Contracting Officer, shall be incorporated into the contract as a compliance document. The contractor shall comply with the approved accreditation documentation. (End of clause)

3052.204-71 CONTRACTOR EMPLOYEE ACCESS (Sep 2012)

(a) *Sensitive Information*, as used in this clause, means any information, which if lost, misused, disclosed, or, without authorization is accessed, or modified, could adversely affect the national or homeland security interest, the conduct of Federal programs, or the privacy to which individuals are entitled under section 552a of title 5, United States Code (the Privacy Act), but which has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept secret in the interest of national defense, homeland security or foreign policy. This definition includes the following categories of information:

(1) Protected Critical Infrastructure Information (PCII) as set out in the Critical Infrastructure Information Act of 2002 (Title II, Subtitle B, of the Homeland Security Act, Public Law 107-296, 196 Stat. 2135), as amended, the implementing regulations thereto (Title 6, Code of Federal Regulations, Part 29) as amended, the applicable PCII Procedures Manual, as amended, and any supplementary guidance officially communicated by an authorized official of the Department of Homeland Security (including the PCII Program Manager or his/her designee);

(2) Sensitive Security Information (SSI), as defined in Title 49, Code of Federal Regulations, Part 1520, as amended, "Policies and Procedures of Safeguarding and Control of SSI," as amended, and any supplementary

Contract Number HSCEDM-14-D-00004

guidance officially communicated by an authorized official of the Department of Homeland Security (including the Assistant Secretary for the Transportation Security Administration or his/her designee);

(3) Information designated as "For Official Use Only," which is unclassified information of a sensitive nature and the unauthorized disclosure of which could adversely impact a person's privacy or welfare, the conduct of Federal programs, or other programs or operations essential to the national or homeland security interest; and

(4) Any information that is designated "sensitive" or subject to other controls, safeguards or protections in accordance with subsequently adopted homeland security information handling procedures.

(b) "Information Technology Resources" include, but are not limited to, computer equipment, networking equipment, telecommunications equipment, cabling, network drives, computer drives, network software, computer software, software programs, intranet sites, and internet sites.

(c) Contractor employees working on this contract must complete such forms as may be necessary for security or other reasons, including the conduct of background investigations to determine suitability. Completed forms shall be submitted as directed by the Contracting Officer. Upon the Contracting Officer's request, the Contractor's employees shall be fingerprinted, or subject to other investigations as required. All Contractor employees requiring recurring access to Government facilities or access to sensitive information or IT resources are required to have a favorably adjudicated background investigation prior to commencing work on this contract unless this requirement is waived under Departmental procedures.

(d) The Contracting Officer may require the Contractor to prohibit individuals from working on the contract if the Government deems their initial or continued employment contrary to the public interest for any reason, including, but not limited to, carelessness, insubordination, incompetence, or security concerns.

(e) Work under this contract may involve access to sensitive information. Therefore, the Contractor shall not disclose, orally or in writing, any sensitive information to any person unless authorized in writing by the Contracting Officer. For those Contractor employees authorized access to sensitive information, the Contractor shall ensure that these persons receive training concerning the protection and disclosure of sensitive information both during and after contract performance.

(f) The Contractor shall include the substance of this clause in all subcontracts at any tier where the subcontractor may have access to Government facilities, sensitive information, or resources.

(End of clause)

ALTERNATE I

(SEP 2012)

When the contract will require contractor employees to have access to Information Technology (IT) resources, add the following paragraphs:

(g) Before receiving access to IT resources under this contract the individual must receive a security briefing, which the Contracting Officer's Representative (COR) will arrange, and complete any nondisclosure agreement furnished by DHS.

(h) The Contractor shall have access only to those areas of DHS information technology resources explicitly stated in this contract or approved by the COR in writing as necessary for performance of the work under this contract. Any attempts by Contractor personnel to gain access to any information technology resources

Contract Number HSCFDM-14-D-00004

not expressly authorized by the statement of work, other terms and conditions in this contract, or as approved in writing by the COR, is strictly prohibited. In the event of violation of this provision, DHS will take appropriate actions with regard to the contract and the individual(s) involved.

(i) Contractor access to DHS networks from a remote location is a temporary privilege for mutual convenience while the Contractor performs business for the DHS Component. It is not a right, a guarantee of access, a condition of the contract, or Government Furnished Equipment (GFE).

(j) Contractor access will be terminated for unauthorized use. The Contractor agrees to hold and save DHS harmless from any unauthorized use and agrees not to request additional time or money under the contract for any delays resulting from unauthorized use or access.

(k) Non-U.S. citizens shall not be authorized to access or assist in the development, operation, management or maintenance of Department IT systems under the contract, unless a waiver has been granted by the Head of the Component or designee, with the concurrence of both the Department's Chief Security Officer (CSO) and the Chief Information Officer (CIO) or their designees. Within DHS Headquarters, the waiver may be granted only with the approval of both the CSO and the CIO or their designees. In order for a waiver to be granted:

(1) There must be a compelling reason for using this individual as opposed to a U. S. citizen; and

(2) The waiver must be in the best interest of the Government.

(l) Contractors shall identify in their proposals the names and citizenship of all non-U.S. citizens proposed to work under the contract. Any additions or deletions of non-U.S. citizens after contract award shall also be reported to the Contracting Officer.

(End of clause)

3052.209-70 PROHIBITION ON CONTRACTS WITH CORPORATE EXPATRIATES (JUN 2006)

(a) Prohibitions.

DETAILED GPS ANKLE BRACELETS AND TRACKING / MONITORING SYSTEM AND TELEPHONIC REPORTING SYSTEM

1. GPS ANKLE BRACELETS AND TRACKING / MONITORING SYSTEM

- a. The Contractor shall own, warehouse, install, monitor and reclaim all of the Electronic Monitoring equipment as stated in this requirements document. Upon completion of the task order, the Department of Homeland Security (DHS) shall make participants available for the Contractor to recover all monitoring and transmitting equipment. The Contractor shall be solely responsible for all coordination and any and all failures and deficiencies resulting from equipment or services provided to DHS under this task order. The Contractor shall provide replacement equipment for all monitoring/transmitting units that DHS determines to be defective.
- b. In the event that ERO requires that a participant be enrolled after standard business hours, ERO has the option to deliver the participant to the Contractor facility for enrollment or to be enrolled in the field. If the participant is to be enrolled in the field, ERO will accompany the Contractor until installation is complete.
- c. The Contractor shall provide an Electronic Monitoring System that provides redundant processors with memory shadowing, high reliability and minimal downtime. The Contractor shall provide equipment that has a verifiable test function from a monitoring center or a remote site.
- d. The Contractor shall use FCC certified equipment. Systems or equipment without FCC certification shall be deemed technically unacceptable and the fault of the Contractor to provide services under this contract. The Contractor shall provide a copy of the FCC certification for each component of the Electronic Monitoring System for approval by the ICE Contracting Officer/Headquarters COR.

2. MONITORING EQUIPMENT: GPS ANKLE BRACELET

- a. The Contractor shall provide FCC certified tamper resistant transmitters that are capable of being affixed to a Participant's ankle.
- b. Transmitter Technology & Specifications
 - i. The contractor shall provide GPS technology, as directed by the local ERO Task Manager for Participants. Transmitters shall communicate to the monitoring center either through a monitoring unit or directly via cellular transmission.
 - ii. The Contractor shall provide a Transmitter Tracking Unit that sends and/or receives signals from GPS satellites and/or cell towers for use with GPS transmitters as specified in this Appendix.
 - iii. GPS Transmitter Tracking Specifications:

1. The system may offer a "Locate Now" function that will enable the transmitting unit and monitoring system to have a continuous reporting mode with automatic location updates in real time or at a minimum of once per minute. This function will be accessible via secure Internet web browser and smart phone mobile application with turn-by-turn directions to device's location. The "Locate Now" function will remain active for two (2) hours, after which time the GPS unit will resume normal operations. All software must be compliant with ICE OCIO standards.
2. Normal Operations for the GPS Ankle Bracelet Transmitter will allow for the continuous tracking of the Participant's whereabouts by storing the coordinates of the device internally every three (3) minutes and then uploading those GPS coordinates at least once every four hours to a monitoring system.
3. The Contractor shall provide GPS transmitters that are able to monitor the Participant's whereabouts inside Exclusion and/or Inclusion zones. Exclusion Zone is defined as a geographical area programmed as satellite coordinates into the tracking system that the Participant shall not enter. Inclusion Zone is defined as a geographical area programmed as satellite coordinates into the tracking system that the Participant is permitted to enter or shall remain within.
4. Signal Range Extender – On an as needed basis, the contractor shall provide a signal range extender to participants to use at their home or office, at no additional cost. A Signal Range Extender shall provide a reliable Radio Frequency (RF) link that serves as a transmitter. When the client comes within range of a signal range extender, he or she is then monitored via RF technology while the tracking unit enters a low power state which conserves battery power while maintaining participant monitoring. The transmitter shall emit a composite RF signal at least once every 30 seconds. The signal content shall identify the Participant, power status, tamper/removal status and be encrypted to discourage duplication.
5. Physical Characteristics - The transmitter shall be adjustable to fit the ankle of any size Participant. The transmitter shall be capable of being affixed to the Participant so that efforts to tamper with or remove the transmitter are obvious upon inspection. It shall be shock resistant, water and moisture proof, and function reliably under normal atmospheric and environmental conditions. The device should be comfortable and durable enough to withstand the strains of everyday wear, which may consist of working, recreational activities, resting or sleeping. The transmitter shall not pose a safety hazard or unduly restrict the activities of the Participant. The contractor shall provide GPS Tracking Units that meet or exceed these same characteristics if the tracking unit is external to the GPS transmitter.
6. The transmitter shall be tamper resistant and have features that reliably detect efforts to tamper with or remove the device.
7. The transmitter shall not require an external battery. The transmitter shall have an internal power source capable of functioning continuously for at

least six (6) months. It shall transmit a signal to indicate when its internal power supply is low.

8. The transmitter must have an option to allow participants to charge their unit without restricting their mobility and freedom of movement.

iv. Monitoring Unit / Transmitter

1. The contractor shall provide a monitoring unit that is capable of using two or more location detection technologies to determine participant location.
2. Monitoring Unit Requirements - The monitoring unit shall include an internal clock to time/date stamp all detected monitoring events. The unit shall have a backup operation feature, backup power source and sufficient memory to store data if communication with the monitoring center is disrupted or if AC power fails. If communications with the monitoring center are disrupted, the monitoring unit shall transmit stored data to the monitoring center as soon as communications are restored. The monitoring unit shall not pose a safety hazard to the participant or others and shall function reliably under normal environmental and atmospheric conditions. It shall include surge protection for electrical and communications interfaces.
3. Monitoring Unit Installation - Prior to the end of the Enrollment/Orientation with the participant (refer to the ATD SOW), the Contractor shall install the monitoring device on the Participant. Participants shall not be permitted to exit the interview until all enrollment procedures have been completed and the Participant has been fitted with the prescribed GPS device. The Contractor shall conduct an operational equipment test on the device to ensure it is in good working condition prior to dismissing the participant from the interview. Equipment that requires component installation in the Participant's residence must be installed and operational within eighteen (18) hours of intake. Exceptions for extraordinary circumstances must be coordinated for approval with the local ERO Task Manager or COR.
4. Tamper Resistance and Notification Features - The monitoring unit shall be equipped with a location feature and a tamper notification system that alerts the monitoring center of any attempts to enter the unit or alter the routine operation of the unit.
5. GPS Monitoring Unit Documentation - The Contractor shall provide written documentation with instructions that enable an ERO Officer to use the GPS monitoring unit and be familiar with their operation. The Contractor shall provide Participants with brochures explaining how to operate the GPS equipment.
6. The Contractor shall provide all necessary tools to install, adjust, and remove the monitoring unit and transmitter in the event that ERO needs to perform these tasks. At a minimum, one tool set shall be provided to each ERO ATD Field Officer.

c. Spares and Maintenance

- i. The Contractor shall maintain a sufficient inventory of GPS Ankle Bracelets / Monitoring Equipment to complete installations within 18 hours of intake; broken parts and replacement parts within 24 hours and supporting special operations. The Contractor shall maintain the inventory in good operating condition and arrange for prompt repair and replacement to meet the demands of the Program.
- d. Equipment and Service Upgrades/Improvements
 - i. Throughout the life of the task order, the Contractor shall provide GPS equipment that is in good working order and capable of fulfilling mission requirements. At contract start, the Contractor must establish its GPS equipment inventory with the most up-to-date versions (as determined by the COR, prior to award) and refresh inventory every 24 months or as updates become available, whichever is sooner and a benefit to the Government. All equipment provided under this contract shall have completed final testing, FCC certification and be commercially available. All GPS Tracking equipment and service upgrades or changes shall be submitted in writing, via the COR, to the Contracting Officer for approval.

3. CENTRAL MONITORING FACILITY

- a. The Contractor shall, at a centrally located monitoring system/facility, receive, store and disseminate information generated by the monitoring equipment and systems described in this document. The Contractor may choose the location of its monitoring system/facility; however, the Contractor's monitoring system/facility shall be located at a secure location where access to the center and all records is restricted only to authorized individuals. The Contractor shall establish an information exchange system within the monitoring center that sends and receives information to and from the GPS Monitoring equipment.

The Contractor shall maintain a physical facility compliant with all applicable Federal, State and local regulations (e.g., building codes, fire and safety codes) and shall not endanger the health and safety of employees and the community. The Contractor shall specify the security safeguards to prevent unauthorized access to monitoring data inside the monitoring facility by monitoring employees or other staff. The Contractor shall include a listing of the employees authorized to make changes or modify Participant data or other agency program settings should the Case Specialist request this. The Contractor shall also detail how it determines, maintains, and communicates this authorization to its employees. The Contractor shall provide security codes to the ERO offices to guarantee the security of data modifications made remotely or over communication systems/lines with the monitoring system or manually on the telephone with a monitoring center employee. The Contractor is prohibited from accessing system user IDs of ERO employees except when specifically required to resolve help-desk issues.
- b. Continuous Operation of Monitoring System - The Contractor staff shall be at the monitoring site and shall operate the monitoring system continuously 24 hours a day, 7 days a week. The monitoring center shall

promptly detect and notify Case Specialists and/or ERO Officers of key event(s). In the event that remote access is temporarily inoperable, Contractor staff shall implement a contingency to manually provide data entry upon requests by Case Specialists and/or ERO Officers of all Participant enrollments, schedule changes and other monitoring information requests and reports and otherwise respond to all inquiries from the staff referenced above.

The Contractor's system shall be capable of providing for two or more simultaneous or time-delayed backup notifications by e-mail or telephone call.
 - iv. The Contractor must telephonically contact the Participant immediately upon system notification of a band or device tamper alert. In the event of such an alert the Contractor must arrange a residence visit or an office visit, as appropriate, to occur no later than the next business day to examine the equipment to ensure that it has not been tampered with. If the Contractor is able to make contact with the participant, then written notification of the band/strap/device tamper can be made within 48 hours if there are no further issues. If the contractor is not able to contact the participant

telephonically, then the local ERO Task Manager must be contacted within one hour of the initial alert.

- v. The Contractor must telephonically contact the Participant immediately upon system notification of a low battery alert (20% battery life remaining) to ensure the Participant charges the device appropriately. Should the battery life remaining reach 10% or less, the Contractor must notify the ERO case officer using the Notification Schedule.

7. REMOTE ACCESS TO MONITORING SYSTEM

- a. The contractor shall provide ERO officers a remote access capability via the Internet for accessing the monitoring system to view, print, download, enter/modify participant monitoring information, and have the ability to perform all standard functions. **Re: Contract #HSCECR-14-R-0001 Intensive Supervision Appearance Program III
(ISAP III)**

(b)(6),(b)(7)(C) Dear [redacted]

(b)(6),(b)(7)(C) In response to a request from ATD Unit Chief [redacted] and [redacted] from (b)(6),(b)(7)(C)
ICE OAQ, BI Incorporated is providing our capability to operationalize a pilot for participants
released from the Rio Grande Valley.

We have included our amended understanding of the tasks required and provided our revised
proposed pricing. The pricing submitted is for the pilot phase only; BI reserves the right to revisit
pricing based on the results of the pilot and scope implications of the new services. BI may also
propose assessing changes to the management fee.

Thank you for your consideration and we look forward to your response.

Sincerely,

(b)(6),(b)(7)(C) [redacted signature box]

(b)(6),(b)(7)(C) Vice President and Program Director ISAPIII 303.218. [redacted] (b)(6),(b)(7)(C)

Rio Grande Valley Pilot Specifications

Duration:

Commence Services: The week of 12/1/2014-upon execution of a contract modification.
Terminate Pilot: upon termination of all pilot participants by ERO

Population:

Not to exceed 250 Enrollments.

Technology:

250 GPS Units (Telephonic Reporting is not an option for this pilot).

Location:

Rio Grande Valley. Exact location(s) that BI Incorporated (BI) will perform services is TBD. Intent is to do it from one site, but possibly two sites depending on agency circumstances.

Services:

Enrollment, GPS installation, abbreviated orientation, and Electronic Monitoring (EM) alert monitoring.

Data collection:

- 1) Number of tampers/alerts generated en-route.
- 2) Appearance/reporting to final destination rate.
- 3) Average length in time to report to final destination.

BI staffing:

Two (2) ISAP III staff members who are certified to perform contract services as either Program Manager or Case Specialist.

Oversight:

ISAP III Program Director/Deputy Program Director.

Enrollment and Orientation:

ATD officers will determine who enrolls and who does not. ATD officers will complete enrollment forms and give them to BI personnel on site for processing. Processing by BI will be abbreviated from a standard orientation and will include:

- Device assignment, attachment, activation.
- Explanation of care, maintenance, and requirements of the GPS unit.
- Record creation in the monitoring program.
- Reporting date and location requirements will be explained thoroughly to ensure the participant understands what happens next, what they need to do,

and where they need to go.

- Assignments/enrollments will continue until all 250 units are assigned. It is anticipated that this will take two weeks or less.
- BI will attempt to resolve any alerts received with the understanding that there will not be a dedicated POC or number to call, nor will interception efforts be made in the field.
- BI will notify the appropriate Alternative to Detention Monitoring Office (AMO) of all alerts for tracking purposes.
- Upon arrival in the final location, ERO-ATD makes a final determination on appropriateness for case management and technology assignment. Absent extraordinary circumstances, participant will likely go into the equivalent of the FS component and will be handled as per ATD Standard Operating Procedures (SOPs), Multi Aspect Removal Verification Initiative (MARVIN), etc.

Rio Grande Valley Pilot Pricing

The chart below includes BI's proposed rate for the Rio Grande Valley pilot. The pricing submitted is for the Pilot phase only; BI reserves the right to revisit pricing based on the scope implications of the new components. BI may also propose a change to the management fee.
